

GIVE WATER BRING LIFE

UNITE FOR A CAUSE 2016

For most plants, animals and people, water means life. Water grows our crops, quenches our thirst, and washes us clean. But for the estimated 663 million people around the world who lack access to clean water, it can mean disease, it can mean starvation, it can mean death. In fact, disease from contaminated water kills more people each year than all forms of violence combined, even war.

The global water crisis is why Unite for a Cause has chosen to make GIVE WATER BRING LIFE our 2016 campaign focus, and bring awareness to the critical importance of clean water. Through this initiative, we will provide funds to build **THREE** water wells that will provide fresh clean water to thousands. The first well is already planned for the African country of Rwanda.

Please join with us to solve the water crisis, and GIVE WATER BRING LIFE to people who so desperately need it. We want **YOU** to join with Unite for a Cause and GIVE WATER BRING LIFE with us. Together, we can make a difference, and together we can UNITE to bring life-giving and life-saving water to people around the globe who need it the most.
